

Cut & strip

TOR

Tor is a professional stripping tool for cables of all insulation types. By rotating the body of the tool the blade can be fixed in any one of three positions providing circular cuts about the cable and lengthways or spiral cuts along the cable.

Unique to this type of tool Tor features interchangeable cable retention hooks giving it an incomparable cable stripping capacity of up to 40mm/1.5 inch diameter in one tool. Designed to fit the hand and for ease of use, Tor can strip the most difficult cables in the harshest of environments.

- Large capacity: Interchangeable hook feature means that Tor can replace two or more similar products in the toolbox.
- Easy to use: Positive locking positions for circular, lengthways and spiral strips.
- No special tools are required to change hooks - one replaces the other.
- Safety straps can be fixed to the eyelet at the base of Tor to prevent accidental dropping of the tool.
- Ergonomic: The well balanced design features rests for thumb, first and little fingers to ease raising of the cable retention hook.
- Durable: Replacement cutting blades can be stored in a pocket located within the tool body.

Technische Daten

Length:	Big hook 168mm / 6,6"
Height:	Big hook 52mm / 2,1"
Weight:	Big hook 116g / 4,1 oz
Stripping dim:	0 - 4,5 mm thick insulation
Cables:	Power cable. Multi-conductor control, fiber optic and copper trunk cables
Description:	Adjustable cable stripping tool
Strip range:	0,18 - 0,98"
