

Crimp Tools for Medical and Electronics Applications

Metric Microcrimp Tool 621205

- Cycle controlled
- Micro adjustable
- Adjustable within .0007 inch

Astro's **621205** Metric Microcrimp Tool is the answer to crimping circular Harting pin and socket contacts. It is a fast, versatile, manually operated, octadent tool for crimping circular pin and socket contacts.

The **621205** provides

continuously variable crimp depth adjustment to optimum settings over a range of contact and wire combinations. Although mostly used in Harting applications, the micro adjustable feature allows the customer to select the precise crimp depth no matter the use and selected need. Locating options are available once need is determined; consult the factory for your specific needs.

The **621205** is adjustable in a range of 1.0 mm to 2.0 mm. Settings to within .02 mm increments are possible for precision crimping.

For long life and optimum performance, this tool should be kept clean and handled carefully, as any other precision instrument.

The **621205** is adjustable in a range of 1.0 mm to 2.0 mm. Settings to within .02 mm increments are possible for precision crimping.
