

Universal Cutting Automat Type C 095

for taped radial components

Component forms

Spezifikation

- dimensions	500 x 400 x 450 mm
- weight	approx. 20 kg
- electrical	230 V / 50 Hz / 110 W
- control	Siemens SPS "LOGO"
- pneumatic	6 bar
- pitch	min: 2,5 mm, max.: 10 mm
- tape holepitch	12,7 mm and 15 mm
- lead Ø	0,4 to 0,8 mm
- components	taped
- delivery	reel or ammopack
- Leistung	5.000 BE/h

Description:

The automatic machine C 095 was especially developed for the rational cutting of taped radial components.

Supplyment of components is done exclusive over reels. Therefore the Automat has a combined survey. Because the C094 only accepts components on tape, either reeled or ammo pack formats are acceptable. Also because of its flexibility, the C095 allows the processing of components taped on 12.7 mm and 15 mm spacing by using easy to change tape guides and tools.

Options:

electronic counter, which cuts off the Automat automatically when the pre-defined number of items is reached.
